

Reference

Ms Laura Wartschinski, born on May 11th, 1994, was a working student in our company's "Digital Engineering Center" from November 1st, 2018 to August 31st, 2019. Before, she has been employed as an intern from August 1st, 2018 to October 31st, 2018.

Detecon International GmbH is a world-leading company for ICT Management Consulting and a wholly owned subsidiary of T-Systems International GmbH. Together with T-Systems Multimedia Solutions GmbH (MMS) and the digitally oriented areas of T-Systems Global Systems Integration (SI), Detecon International GmbH forms one of the largest integrated digital providers in Germany as the "Digital Solutions" portfolio unit.

Ms Wartschinski carried out the following main duties:

- Development of a risk assessment tool that takes into account several different standards (BSI, NIST etc.)
- Creation and execution of a workshop on the topic of web security with practical exercises and examples
- Setup of a Kali Linux environment and an environment for demonstrating security exploits
- Creation of an introductory university lecture on the topic of basic security concepts
- Creation and execution of a workshop on risk analysis, including examples and exercises
- Analysis of the annual reports of DAX companies with methods of natural language processing
- Elaborations on the topic of BSI-IT-Grundschutz

Ms Wartschinski always distinguished herself by her very high motivation to learn and work. She demonstrated excellent analytical abilities and judgment in all of the tasks she handled.

Owing to her swift grasp and to her commitment she acquired sound practical skills within a short time.

Her method of learning and working was always of highest quality. We got to know her as a reliable working student who listened actively and familiarized herself with new tasks rapidly and flexibly. We were always extraordinarily satisfied with the quality and quantity of her work. She also solved difficult task assigned to her for independent completion very well. The texts she wrote were clear and fluid.

Ms Wartschinski's performance and achievement of goals perfectly met the expectations we place on interns in every respect.

She was highly appreciated by her superiors and colleagues for her factual and courteous manner. Also her conduct towards our customers and other business partners was always impeccable. Apart from being a good networker, she is ready to cooperate, which makes her a good team worker.

In accordance with her employment agreement, Ms Wartschinski is leaving us after completing her working student activity on August 31st, 2019.

We would like to thank her for her consistently excellent performance. For her studies as well as for her further professional and private life we would like to wish Ms Wartschinski all the best and a lot of continued success.
